DMK’s botanical-based paramedical products work on all skin types. Enzymes are nature’s own biological catalysts, which hydrolyse dead skin cells.

DMK Skin products are transdermal. They use chemistry that the skin recognises, which allows them to penetrate into the deeper layers of the skin. Skin tightening and toning is noticeable after the very first treatment.

## Million Dollar Facial and Micro needling

### MILLION DOLLAR

Starting with Dermaplaning. This will exfoliate the skin and remove soft ‘fuzzy’ hairs from the surface.

Ice globes are then used to provide a lymphatic drainage massage and soothe the skin prior to the micro needling. The micro-needling process stimulates your natural collagen in order to rejuvenate skin, minimise the appearance of large pores and reduce fine lines and wrinkles. As well as this micro-needling can also repair irregularities such as scarring and hyper pigmentation.

After micro-needling it is time to hydrate the skin. We use hyaluronic acid to penetrate and restore the skin.

With smooth, hydrated skin, you will leave feeling a Million Dollars.
